

FAS Product Packs

The stakes are too high to risk significant errors when it comes to fixed assets. Fixed asset managers require an organized, consistent system that yields reliable, accurate results. FAS Product Packs are comprehensive solutions designed to optimize the quality of fixed asset management, support executives in making sound decisions about priorities, and provide an efficient and cost-effective solution to meet the needs of any organization. By combining the multiple components that make up Sage FAS Fixed Assets, you can attain the benefits that comprehensive fixed asset management provides:

- Accurately budget, monitor and manage projects as assets are constructed
- Reduce theft by maintaining a precise accounting of corporate assets
- Significantly cut the time it takes to perform an exact inventory
- Eliminate overpayments of taxes and insurance by ensuring all fixed assets on the books are properly tracked
- Keep up-to-date with the latest IRS and GAAP rule changes concerning fixed assets

Track Pack, Project Pack, and Complete Pack combine the tools you need to ensure that you are tracking, managing and reporting the necessary information concerning your organization's fixed assets. By choosing the FAS Product Pack that best meets your needs, you save up to 46%* versus purchasing the modules separately. Take control of the total asset management cycle by selecting one of these best of breed solutions from Sage FAS.

From developing innovative products to providing award-winning customer support, Sage Software is dedicated to surpassing expectations in all aspects of our business. For more information about FAS Product Packs, please call us toll free at 800-368-2405, or visit our Web site at www.SageFAS.com.

TOTAL FIXED ASSET MANAGEMENT

FAS Product Packs help reduce costs, save time, and improve tracking by allowing you to combine any or all of the Sage FAS solutions – FAS Asset Accounting, FAS Asset Inventory, FAS CIP Accounting, and FAS Report Writer.

SEAMLESS INTEGRATION

Eliminate data entry errors and allow for the accurate tracking and accounting of all fixed assets. Sage FAS can integrate with most General Ledger programs to ensure that information easily flows into other systems.

FLEXIBLE CONFIGURATIONS

With the wealth of features offered including customizable data fields, and a Group Manager that helps you organize and view only the assets you're interested in.

CONSISTENT DATA ENTRY

SmartLists provide predefined drop-down lists for fast and accurate data entry, and Asset Templates that promote data integrity and accelerate the process of entering new assets, ensure that asset information is entered quickly and correctly.

QUALITY SUPPORT

Sage FAS SupportPlus members benefit from an unmatched level of customer support. You can use FAS SupportPlus Online to get answers 24 hours a day, 7 days a week, or call our friendly experts for help. What's more, FAS SupportPlus users can also download tax and software upgrades, access multimedia tutorials, and take advantage of exclusive discounts on new products.

*Savings based on new network license with specified bundled trade-up components. Call your Sage FAS representative to calculate your bundled savings at 800-368-2405.

FAS Asset Accounting

FAS Asset Accounting is a comprehensive solution that provides advanced fixed asset accounting and reporting features for businesses needing effective decision-making tools in integrated accounting environments. Offering the flexibility you need to satisfy the requirements specific to your operations, it offers more than 50 depreciation methods, over 300,000 IRS tax and GAAP rules built-in, more than 30 reports, tax forms, and worksheets, and Audit Advisor which flags assets with potential compliance issues for further review. FAS Asset Accounting provides an all-inclusive solution for recording all of the data for each asset, including a notes field with a time and date stamp for recording transactions involving the asset, and the ability to attach photos and documents.

FAS Asset Inventory

FAS Asset Inventory allows you to thoroughly track your fixed asset inventory, thereby eliminating lost or stolen assets and reducing insurance and tax overpayments. With easy-to-use wizard-based operation, and integration with state of the art barcode readers, FAS Asset Inventory makes the process accurate and efficient.

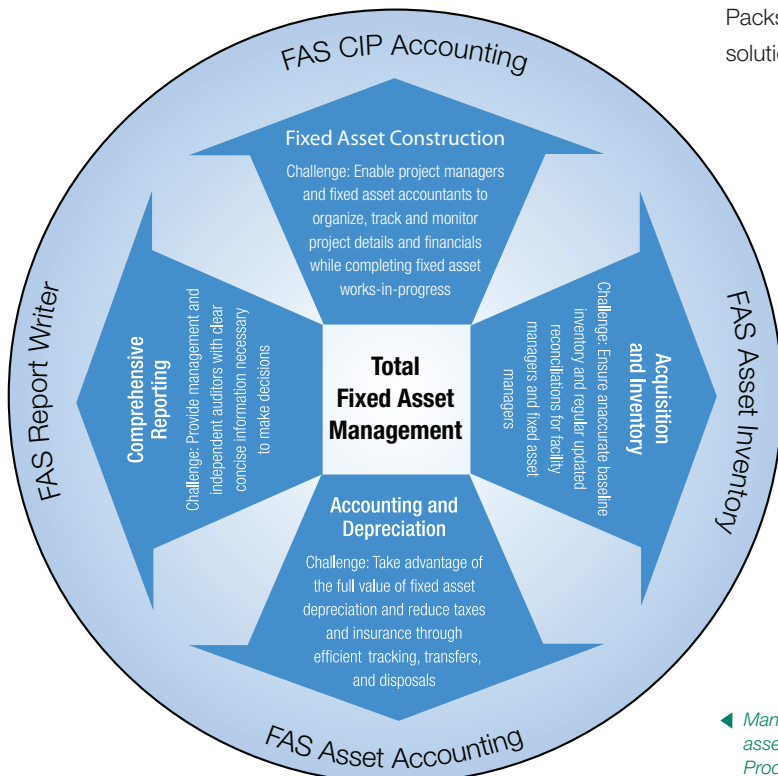

FAS CIP Accounting

FAS CIP Accounting allows you to take control of your fixed assets even before they become fixed assets. Designed to help manage and track the assembly of multi-component equipment, machinery upgrades, or building renovations through the accumulation of separate invoices prior to placing a fixed asset into service, FAS CIP Accounting is the perfect solution to your construction in progress needs.

FAS Report Writer

FAS Report Writer provides total control over the creation and customization of your reports with unlimited possibilities. Create an unlimited number of columns which can be designed to display the results of calculations based on other fields and columns, or those based on your own custom formulas

FAS Product Packs are scalable, and will accommodate the evolving needs of your organization. These are valuable tools that will enable you to efficiently track, manage, and report on fixed assets throughout their entire life cycle. Contact your Sage FAS representative at 800-368-2405 to see which of the FAS Product Packs listed below will provide the total fixed asset management solution for you organization.
